Dear Mr. Riesenberg:

On 5/20/03, I conducted a Final Inspection of the home you constructed at **2885 Lepak Lane**. It is very gratifying to report that no violations of the One and Two Family Dwelling Code were found to exist in the home. It is evident that much attention was paid to the construction of this home in compliance with the many applicable Wisconsin Building Codes.

The Department of Code Administration would like to thank Providence Builders & Realty and your various sub-contractors for the conscientious work performed on this project. Too often, substandard workmanship and code violations receive the majority of attention from this office. It is a pleasure to commend you for the quality work you and your subcontractors have exhibited in the completion of this project.

Once again, thank you for your spirit of cooperation with this officer and the Department of Code Administration. If I can be of assistance or can answer any questions in the future please contact me at 434-4641, Ext. 1308.

Sincerely,

Joseph E. Varga
